INTRODUCTION

Bhopal Memorial Hospital & Research Centre

“Caring is a way of life”. This is the motto at Bhopal Memorial Hospital and Research Centre, a 357-bedded multi-specialty tertiary care centre situated at Bhopal, Madhya Pradesh, which is the centre / Heart of India. The institute was started as per the directive of the Honorable Supreme Court of India to provide advanced tertiary level super-specialty care to those affected by the the Bhopal Gas Tragedy (1984) as well as to extend its services to the public at large.

The state-of-the-art infrastructure of the hospital building with strategically designed health care facilities literally takes the breath away and yet lends a professionally confident quality to our care. Additional facilities like easily accessible rest homes and cafeterias add to the comfort level of patients and their caretakers. It takes a lot more than engineering and technology to make up a hospital. A team of diligent and dedicated highly qualified medical professionals, including specialists and super specialists, ably supported by efficient and warm nursing and paramedical staff is the crowning glory of this institution.

Health care is just the first step in our service to the community, and can never be complete without research and spreading knowledge through teaching. The institute has a highly advanced research centre. Teaching facilities include a nursing college and a paramedical institute.
