Message from the Director

Dear Candidates,

“Nursing Is All About Touching Lives, And Lives Touching Yours Along The Way”

Welcome to Bhopal Nursing College of Bhopal Memorial Hospital and Research Centre (BMHRC), Bhopal.

BMHRC, Bhopal is an institute under the Department of Health Research (DHR), Ministry of Health and Family Welfare (MoH&FW), Government of India. Bhopal Nursing College in BMHRC was established in November, 2003. Bhopal Nursing College is one of the finest Nursing Institutes in the state of Madhya Pradesh with students from all over India. BMHRC has excellent infrastructure facilities like 357 bedded super specialty hospital, state-of-the-art class rooms, clinical laboratories, library, multipurpose hall-cum-auditorium, play grounds & girls hostel for adequate students.

The teaching and training courses being run at the institute not only fulfill the objective of capacity building for increasing trained professionals in the field of health care but also in an integrated form create synergetic impact through inculcating ethical and human values in young students for the benefit of society and the nation at large. The aim of Bhopal Nursing College is not only to teach nursing but also to develop the overall personality of the students.

I wish you all a bright career in the field of Nursing.

***Dr. Prabha Desikan
Director
BMHRC, Bhopal***

Message from the Principal

Dear candidate,

We welcome you to Bhopal Nursing College, BMHRC, Bhopal. If you wish to grow a garden, you need a lot of water in the form of perspiration. Bhopal Memorial Hospital & Research Centre is a super specialty health care hospital which was set up to provide health care to the victims of 1984 gas tragedy in Bhopal. Bhopal Nursing College, started in the year 2003 has achieved recognition as one of leading Nursing Institution in central India. A commitment for excellence in teaching, research, service and leadership is the essence of our institution.

Under the able guidance of BMHRC management the college is evolving into a strong and productive unit providing quality health care and also providing the best nurses to the country,

I am hopeful that this institution will grow to promote and propagate health care and ideologies of Florence Nightingale so that humanity may not suffer from the reverses of health and world citizens may live a healthy and happy life.

**Ms. Anita Nand
Principal
Bhopal Nursing College
BMHRC, Bhopal**

INTRODUCTION

Bhopal Memorial Hospital & Research Centre

“Caring is a way of life”. This is the motto at Bhopal Memorial [Hospital](#) and Research Centre, a 357-bedded multi-specialty tertiary care centre situated at Bhopal, Madhya Pradesh, which is the centre / heart of India. The institute was started as per the directive of the Honorable Supreme Court of India to provide advanced tertiary level super-specialty care to the victims of the Bhopal Gas Tragedy (1984) as well as to extend its services to the public at large.

Bhopal Nursing College, BMHRC is under the Department of Health Research, Ministry of Health And Family Welfare, Govt. of India. The [hospital](#) is a referral and tertiary care centre for thousands of MIC exposed patients who are first seen at the primary care level in the 8 mini units (satellite health centers) spread around in the city, and then referred to the advanced and specialized departments at the [hospital](#). A sprawling, lush, green campus with a serene atmosphere greets the patients and their families when they reach the [hospital](#). A tribute to the gas victims named “Homage & Hope” provides a soothing and reassuring feeling to the patients and their families.

The state-of-the-art infrastructure of the hospital building with strategically designed health care facilities literally takes the breath away and yet lends a professionally confident quality to our care. Additional facilities like easily accessible rest homes and cafeterias add to the comfort level of patients and their caretakers. It takes a lot more than engineering and technology to make up a [hospital](#). A team of diligent and dedicated highly qualified medical professionals, including specialists and super specialists, ably supported by efficient and warm nursing and paramedical staff is the crowning glory of this institution.

Health care is just the first step in our service to the community, and can never be complete without research and spreading knowledge through teaching. The institute has a highly advanced research centre. Teaching facilities include a nursing college and a paramedical institute.

MISSION

Caring, Compassion, and Commitment to excel in the field of health care is the mission at Bhopal Nursing College. Academic excellence is evident in the involvement of faculty and students in research.

VISION

Bhopal Nursing College provides quality nursing education that makes it recognized as a leader in health professional education by qualified applicants, graduates, post graduates, and employee. We make a difference in the lives of our students, the practice of our profession and the health of the people we serve.

PHILOSOPHY

Bhopal Nursing College believes that

- Health is a state of well-being that enables a person to lead a physically, psychologically, socially and economically productive life. Health is a right of all people.
- Nursing is a dynamic, therapeutic and educative process in meeting the health needs of society and assisting the individual & family to achieve their potential for self direction.
- Nursing is a profession, which is influenced by advances in science and technology, encouraging innovations in nursing and applying evidence based practices.
- Nursing is based on values of caring and aims to help individuals to attain independence in self-care.
- All-round development of the student is important to make them an individual, a citizen as well as a professional nurse.
- The teacher has the responsibility to be a role model and create learning environment that enables students to acquire inquiry-driven, self-directed learning and to foster an attitude of life-long learning.

OBJECTIVES

Post Basic B.Sc. Nursing

The objectives of Post basic B.Sc (Nursing) programme are to upgrade the Diploma (GNM) nurses to

- prepare nurses with a sound knowledge in nursing to enable them to function as an efficient member of the health team, with the competences in all level of health care settings.
- help nurses to develop an ability to co-operate and co-ordinate with members of the health team.
- provide personal and professional development to contribute at its maximum to the society.
- serve as a base for further professional education and specialization in nursing.
- prepare nurses to keep pace with advance professional and technological development and use the same for providing nursing care services.
- emphasize the importance of continuing learning for their personal and professional development.
- enable professional nurses to participate in research activities and utilize research findings in improving nursing practice.
- demonstrate leadership qualities and managerial skills in different health settings.

FACILITIES AVAILABLE

A. CURRICULAR ZONE

Lecture Halls

Bhopal Nursing College has spacious lecture halls with comfortable seating arrangements and is also equipped with advanced teaching aids for effective teaching and learning experience.
